

GNOMEFRUIT

INSTRUCTIONS AND INFORMATION

ANDROID EMULATOR

The bot will work in mobile phone and PC
In both you need a android emulator

Android emulators :

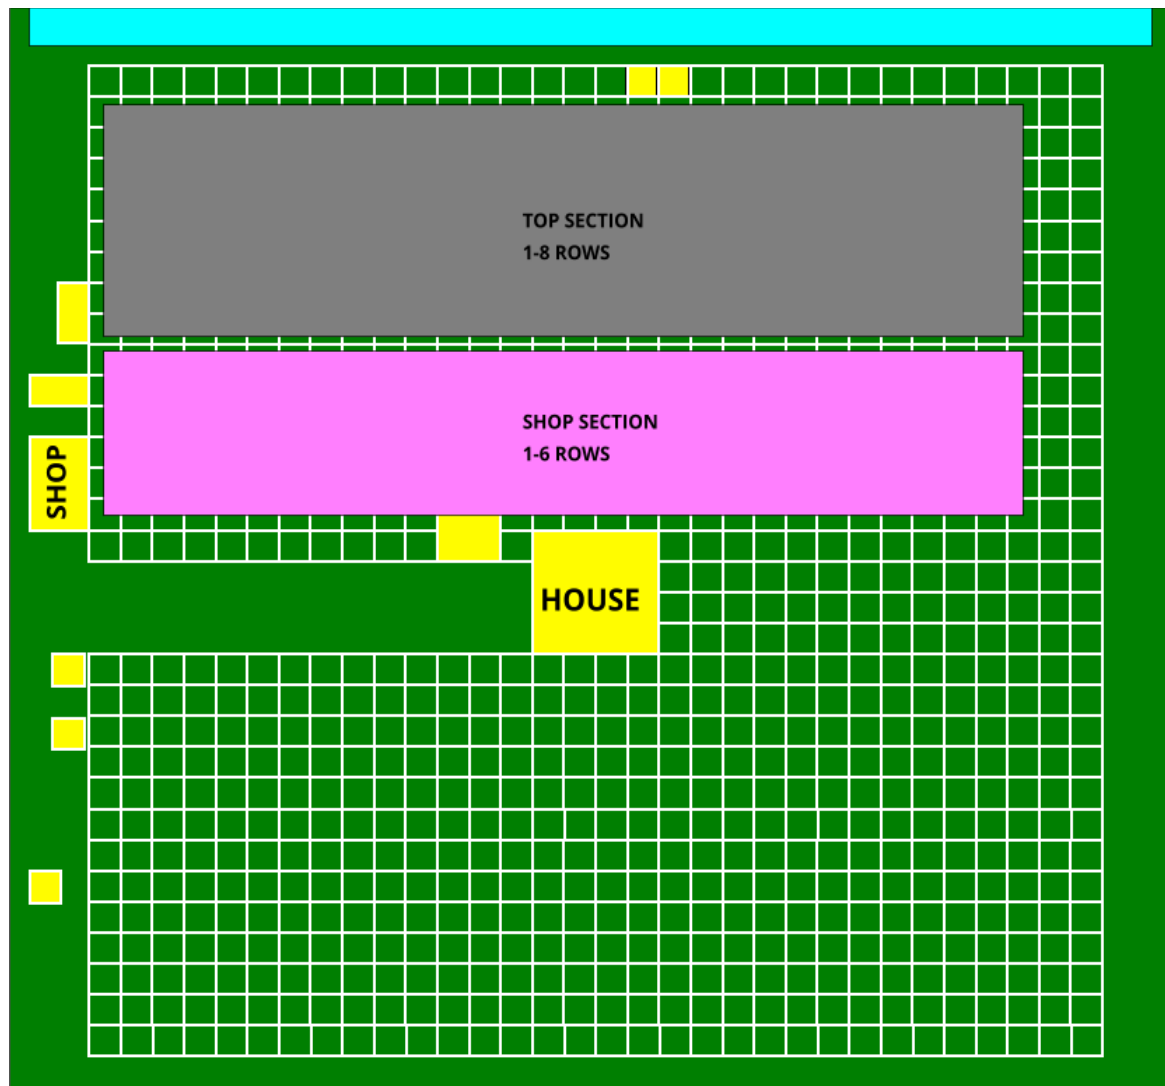

PC – Install Nox or Memu or LD Player

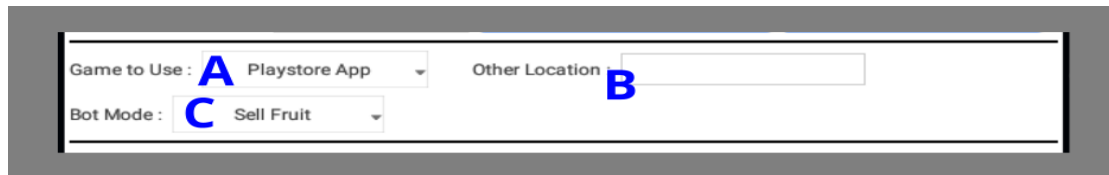

Mobile – Install X8sandbox

Inside the emulator – Install HayDay game and the Bot app

Emulator screen settings: 640 x 480 120dpi

FARM LAYOUT AND SECTIONS

A screenshot of a game configuration interface. It features a white rectangular area with a black border. Inside, there are two rows of controls. The first row has a label 'Game to Use :', followed by a dropdown menu showing 'Playstore App' with a blue letter 'A' to its left, and then the text 'Other Location' followed by an empty text input box with a blue letter 'B' to its left. The second row has a label 'Bot Mode :', followed by a dropdown menu showing 'Sell Fruit' with a blue letter 'C' to its left. The entire interface is set against a dark gray background.

Game to Use : **A** Playstore App Other Location **B**

Bot Mode : **C** Sell Fruit

A – GAME TO USE

- Playstore App – This is the original Hay Day app
- HayDay01 Anti Ban – This is the Anti ban version of Hayday
- Other – Your own clone – Enter the clone location in **(B)**

To protect your farm – Anti Ban App is recommended, not required

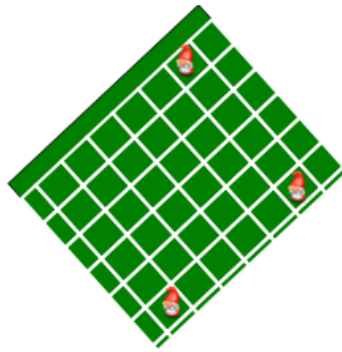

B – BOT MODE

- Plant Trees or Bushes
- Dead Trees or Bushes (Revive / Cut)
- Sell Fruit (Collect and Sell)
- Clear help

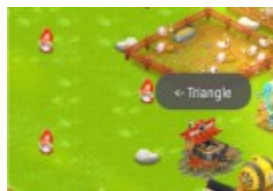

PLANT TREES OR BUSHES

TRIANGLE POSITION

The bot uses 3 gnomes arranged in a triangle before it Plant or Cut
This can be anywhere on the farm
There are 4 empty spaces between each gnome
Gnomes always face LEFT

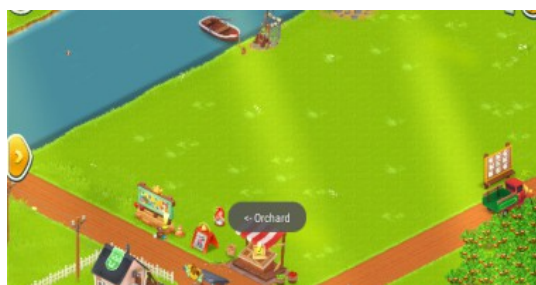

When asked to move to triangle position :
Move to triangle, then click cash register

ORCHARD POSITION

Before planting , the bot will ask for orchard position
Move to this position , then click cash register
Orchard position is where the bot must start planting

PLANTING MENU

PLANTING:

What To Plant: **A** Apple Tree Where To Plant: Shop Section **B**

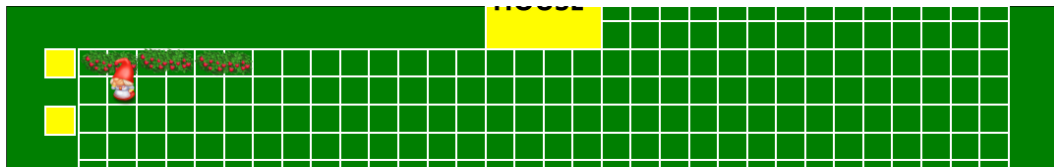

Plant Direction **C** Left to Right Number of Rows : 6 **D** Number of Blocks : 6 **E**

Slow down planting : 0 **F** Milliseconds (0 = fast 1000 = slower)

A – WHAT TO PLANT

- The bot can plant all trees and bushes

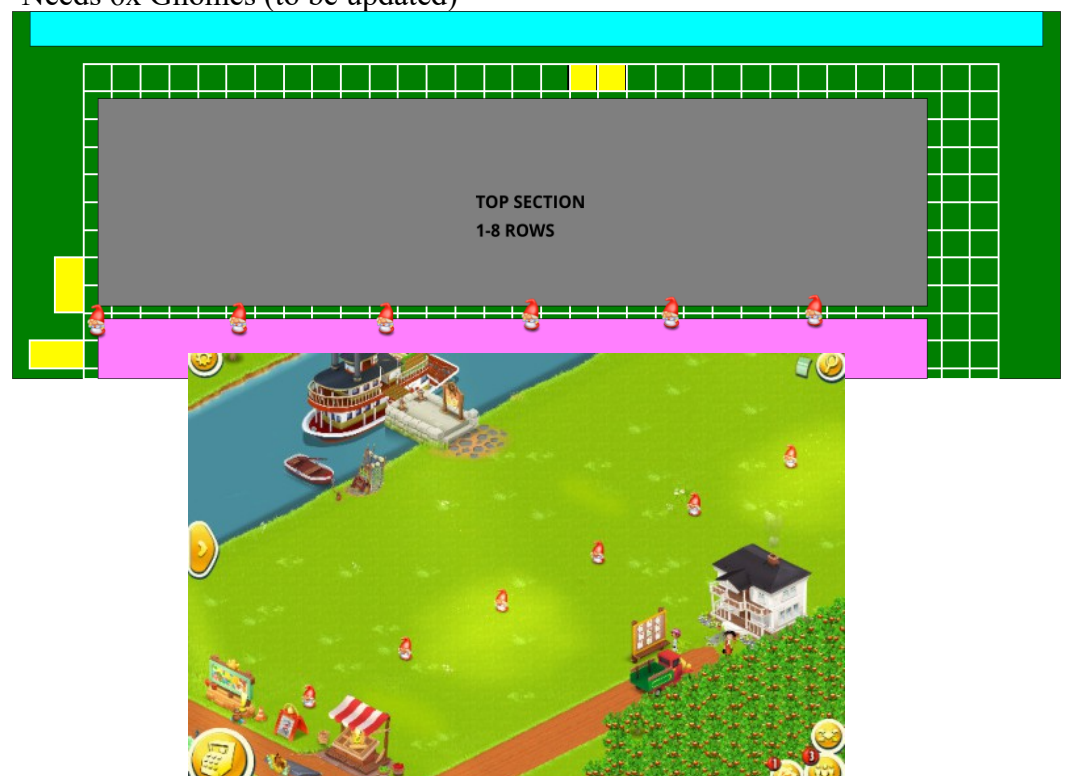

When planting raspberry or blackberry bushes, note the empty space in front of the gnome

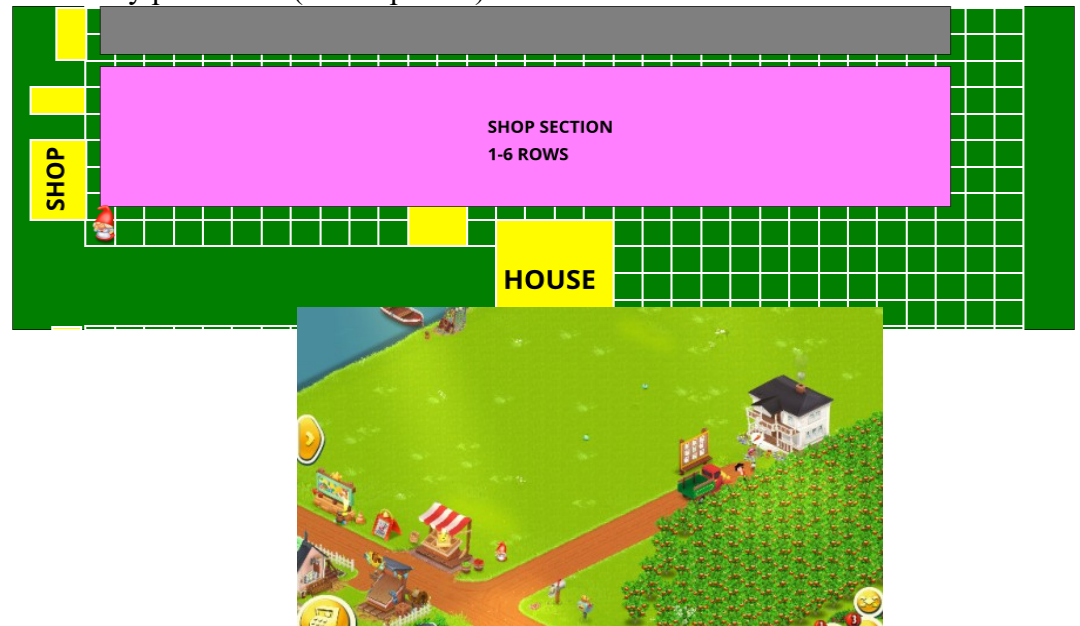

B – WHERE TO PLANT

Planting always start ABOVE the gnome

Top section – Next to the river
1 – 8 rows
Can only plant trees (to be updated)
Needs 6x Gnomes (to be updated)

Shop section - Behind the shop
 1 – 6 Rows
 Can only plant trees (to be updated)

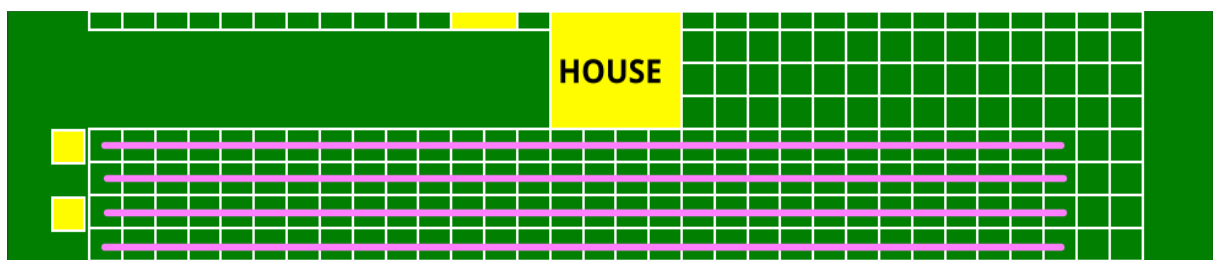

Elsewhere - This is the rest of the farm
 1-10 Rows
 Can plant left to right, and right to left

C - PLANT DIRECTION
